

## Slide Announces New Stock Repurchase Program of \$100 Million

April 28, 2026

TAMPA, Fla., April 28, 2026 (GLOBE NEWSWIRE) -- Slide Insurance Holdings, Inc. ("Slide" or the "Company") (Nasdaq: SLDE) today announced that its Board of Directors has authorized a new common stock repurchase program of \$100 million. The authorization is effective immediately, has no time limit, and may be modified, suspended or discontinued at any time.

"The Board's authorization of this new stock repurchase program demonstrates our continued confidence in Slide's strategic direction, exceptional underwriting performance and strong financial foundation," said Bruce Lucas, Chairman and Chief Executive Officer of Slide. "Our business consistently generates substantial free cash flow while we maintain ample capital to support our long-term growth initiatives. As a result, our strong capital position enables us to strategically repurchase shares when market conditions continue to present attractive opportunities, allowing us to enhance shareholder value over time."

Under the current \$125 million program, as of April 28, 2026, Slide has repurchased 6,240,335 common shares at a weighted average share price of \$17.75. With the new program in place, Slide has \$114 million of availability under its current repurchase programs.

Since the Company's June 2025 initial public offering, Slide has repurchased 13,349,752 common shares at a weighted average share price of \$17.30.

Share repurchases under the stock repurchase program may be made in the open market at prevailing market prices, through privately negotiated transactions, or through other structures in accordance with applicable federal securities laws, at times and in amounts as management deems appropriate. The timing and the amount of any common stock repurchases will be determined by the Company's management based on its evaluation of market conditions, the company's liquidity needs, corporate and regulatory requirements and restrictions, share price, trading volume and other factors. Repurchases of common stock may be made under a Rule 10b5-1 plan, which would permit common stock to be repurchased when the company might otherwise be precluded from doing so under insider trading laws. The repurchase program does not obligate the company to purchase any particular number of shares and may be suspended, modified, or discontinued at any time without prior notice.

### Forward-Looking Statements

Statements in this press release that are not historical facts are forward-looking statements that are subject to certain risks and uncertainties that could cause actual events and results to differ materially from those discussed herein. In some cases, you can identify these statements by forward-looking words such as "may," "might," "will," "should," "expect," "plan," "anticipate," "believe," "aim," "estimates," "predicts," "potential" or "continue," the negative of these terms and other comparable terminology and relate, without limitation, to the Company's beliefs and expectations regarding the Company's projections of future financial performance including net margins and its share repurchase program and its ability to increase return on equity and build long-term value for shareholders. These statements are only predictions based on Slide's current expectations and projections about future events and are not guarantees of actual results, level of activity, performance or achievements. Although Slide believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, there are important factors that could cause the Company's actual results, level of activity, performance or achievements to differ materially from those anticipated in any forward-looking statements, including, among others, our limited operating history; the success of the Company's underwriting and profitability initiatives; inflation and other changes in economic conditions (including changes in interest rates and financial and real estate markets), including changes that may impact demand for our products and our operations; lack of effectiveness of exclusions and loss limitation methods in the insurance policies we assume or write; inherent uncertainty of our models and our reliance on such models as a tool to evaluate risk; the impact of macroeconomic conditions, including declining consumer confidence, inflation, high unemployment and the threat of recession; the impact of new federal and state regulations that affect the property and casualty insurance market and our failure to meet increased regulatory requirements, including minimum capital and surplus requirements; the cost of reinsurance, the collectability of reinsurance and our ability to obtain reinsurance coverage on terms and at a cost acceptable to us; assessments charged by various governmental agencies; pricing competition and other initiatives by competitors; our ability to obtain regulatory approval for requested rate changes, and the timing thereof; legislative and regulatory developments; the outcome of litigation pending against us, including the terms of any settlements; risks related to the nature of our business; performance of our investment portfolio; the adequacy of our liability for losses and loss adjustment expense; ratings by industry services; catastrophe losses; reliance on key personnel; weather conditions (including the severity and frequency of storms, hurricanes, tornadoes, wildfires and hail); acts of war and terrorist activities; court decisions and trends in litigation; and other matters described from time to time by us in our filings with the Securities and Exchange Commission.

Any forward-looking statement made by Slide in this press release speak only as of the date on which it is made. Slide undertakes no obligation to update any forward-looking statement, whether as a result of new information, actual results, revised expectations or otherwise, except as may be required by law.
